Study Guides & Resources

BBC Bitesize Website. Revision Books from the department (£3). AQA website.

Extra Support

Geography rooms are available for extra research/homework.

Other Parental Support: Encourage students to frequently watch the news, read a newspaper and engage in current events. The current issues surrounding migration for example, or extreme weather events, earthquakes etc. A knowledge of places is important and being aware of the location of places they might visit or be interested in will help their locational knowledge.

During Year 11 staff will provide additional catch up sessions for targeted students or on a drop in basis. Please encourage the attendance of these if your child is invited.
