

March 2024

Dear Parents and Carers,

Re: National Careers Activities and Whole School Careers Fair – Tuesday 12th March

This week we are celebrating National Careers Week in school, with a careers focus in tutor time, and personal development. Alongside this, we are building up to our whole school Careers Fair on Tuesday 12th March.

Whole School Careers Fair

All students will be attending our whole school Careers Fair on Tuesday 12th March. We will welcome a range of employers and higher education providers. The event will also provide the opportunity for students to access careers guidance and information on careers development opportunities. All students will have an allocated slot as part of the timetabled day and will attend with their teacher.

Supporting your child with their careers planning

We would like to encourage you to have conversations with your child about their current careers ideas, and also to learn more from the resources available below. We are aware the careers landscape is always changing so it is helpful to make the most of these resources.

There are a number of useful guides and resources:

1. The Virtual Careers Fair for National Careers Week - <https://www.ncw2024.co.uk/>
2. Parents Guide - download your copy here - <https://www.theparentsguideto.co.uk/nationalcareersweek>
3. Parent and Student webinars via Invest In - <https://investin.org/pages/parent-events>
4. Access **Kimberley School Careers Notices** shared with our school via our [padlet](#).

We look forward to these opportunities to spark future connections and opportunities for our students in their career journeys.

Yours sincerely,

R. Wilson

Personal Development and Careers Lead
