Spring/Summer 2022 Tutorial Programme

Tutorial Work during the Spring and Summer Term

- The tutorial programme aims to help students in preparing for a healthy life as an adult in a democratic society, as well as helping to prepare them for their more specific futures.
- Due to the ongoing impact of Covid 19 we continue our focus on mental health and well-being during the Spring term for both year groups. If you are responsible for a session, please make sure that materials are circulated to staff by the Friday preceding its delivery, providing clear instructions.
- There are no full assemblies scheduled in the main hall due to Covid – we will keep the situation under review.
- Students' involvement in the school community is very important and therefore please, once Covid allows, encourage students to help for instance in a lower school lesson, or to get involved in helping in a primary school etc.
- Please go through the Bulletin each week at the start of period 3 to ensure students understand what is going on and when possible use the news item and thought for the week to stimulate discussion and debate. We will ensure that a range of local, national and international items appear which enable democratic values to be promoted through debate and discussion.
- Further details will be provided, as necessary, through the tutor bulletin each week.

| | Year 13 | Year 12 | |
|--|--|--|----------|
| | | | 4th Jan |
| | Learning Skills (JCL) / Road Safety | Think for the future- Breaking a Bad Habit | 11th Jan |
